## Declaration of REACH Compliance

Dear Valued Customer,

The European Union's REACH Directive (EC 1907/2006) is designed to regulate the Registration, Evaluation, Authorization and Restriction of Chemical Substances. Reach legislation was finalized in December of 2006 and has been in effect since June 2007.

NanoFEA, LLC can confirm that none of the 241 chemicals listed by ECHA, being the Substances of Very High Concern, are used in either the manufacture of or are present in any of the NanoFEA line of products.

NanoFEA will take and continue to take all reasonable and practical steps with our supply base and within our internal manufacturing processes to ensure both the continued high performance and quality of our NanoMAX line of products as well as maintain compliance to the best of our ability to meet this REACH Regulation.

Signed.

David DeWire
